## 2024 Summer CSA Information

### **About Community Supported Agriculture (Produce subscription box )**

Community Supported Agriculture (CSA) is a cooperative farming agreement between consumers and farmers, sharing the inherent risks of working, at times, despite of the elements. Exchanging seasonal produce for up-front payments helps purchase necessary supplies for the season. Each year is different for each crop and in taking part in our CSA you are sharing in our risks and in our bounty. That being said, we are utilizing season extension methods and use varieties that are appropriate for our short season and variable climate. We are also expanding our crop varieties so we will always have something offer! A subscription to our locally grown produce is a form of investment in our farm and in our mission.

### **Seasonal Produce**

We have an expanding variety of vegetables, herbs, and greens planted this season! Each of our 11 weekly boxes will provide a selection of produce including greens, herbs, alliums, root crops, and seasonal vegetables. Each box will include 6-8 items and a recipe including at least one item in that week's box. Bear Canyon Farm CSA members will enjoy the quality of fresh, naturally grown produce for their families while supporting the mission of the farm.

### **Delivery/Pick-up**

For our 2024 Summer CSA, your veggie box will be ready each week on Monday afternoon. The CSA subscription **begins July 22 and ends September 30**. See subscription form for exact days and times of pick-up. As fresh produce is quite perishable, if you cannot pick up your share at that time, please make arrangements for someone to pick-up for you.
